02.Hidden Files

Saturday, March 14, 2026 6:46 PM

! A file with a dot in front is considered hidden

Commands

- ls -a list all files (including hidden ones)

Every directory has both '.' and '..'. They cannot be created or deleted. '.' means current directory and '..' means the directory one above current one

- cd - changes directory to the last one visited

- TAB complete - autocompletes a word
